

Worship Service Equipment

A Practical Guide for Purchasing

Purpose:

As a church begins the process of thinking through what it looks like purchase necessary equipment it can be overwhelming. This document aims to bring clarity to how Grace Church purchases equipment, and what equipment gets purchased. It is important to Grace that when making individual purchases it is done with the goal of providing each campus with adequate yet reasonably priced equipment.

Things to Consider:

- **Pipe & Drape** – This has been essential in creating a focused environment. In a building (usually rented) there are numerous distractions that cannot be eliminated. Pipe and drape not only draws attention to the stage, it enables the staff to decide what is seen by those attending.
 - We have used **Georgia Expo** – click [here](#).
- **Staging** – When it comes to portable staging, versatility and flexibility are key.
 - We have used **Stage Right** – click [here](#).
- **Portable Baptistery** – We use portable baptisteries at all of our campuses.
 - We have used **Portable baptistry** – click [here](#).
- **Audio / Video** – We have included a spreadsheet that gives a basic idea of what gets purchased for new campuses and links to where those items can be purchased. See below:

Item	# of items	Individual Price	Total Price	Details	Link
